Life Member, MIT, Boston.

Chairman, Tejas Networks.

Indian American Entrepreneur and Venture Capitalist.

Ex. Co- Chairman for Barack Obama's Advisory National

Advisory Council on Innovation and Entrepreneurship

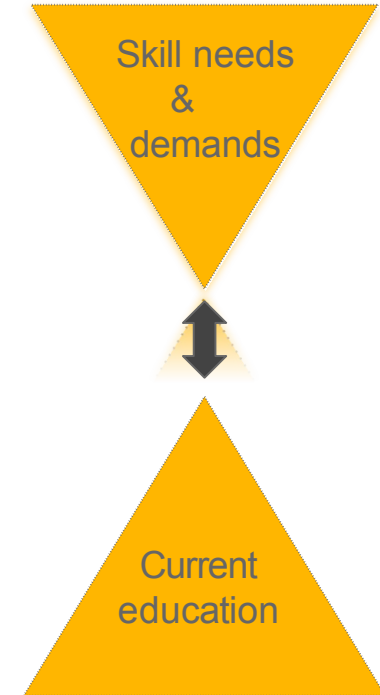

# Why do students need training?

Let's start with what your students want to do after college

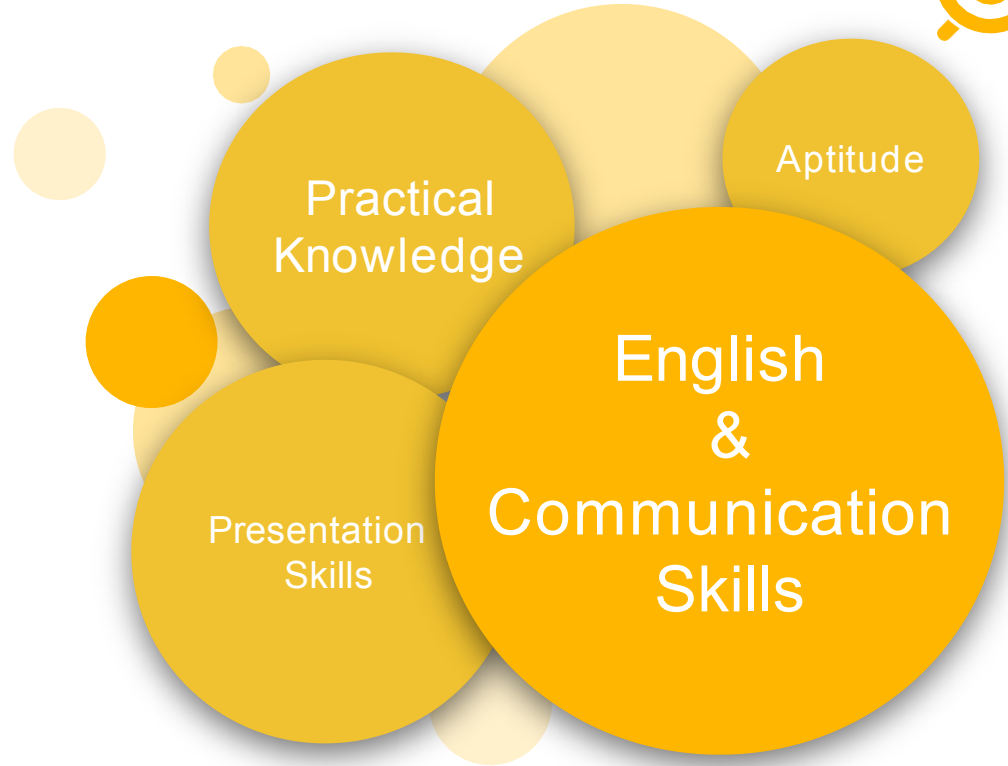

# Skill

# gap

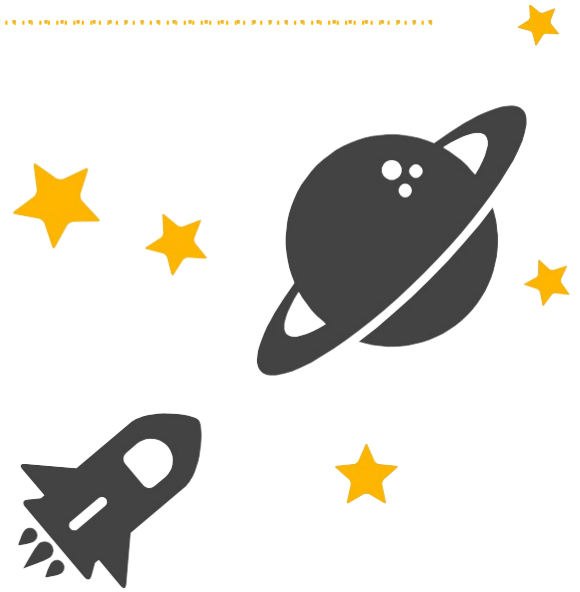

- The demand for specialised skills has increased.
- Most new-age companies/startups find it hard to fill positions due to the lack of skilled talent.
- Graduates need to be skilled in technologies that companies want to hire
- Students and professionals alike need to start taking matters into their own hands.

# What do industries look for?

# Skill I In College

Help students utilize their years in college to maximize the output from their education
